CERTIFICATIONS

- HTML Essentials, May 2026
- CCNA: Enterprise Networking, Security, and Automation, November 2025
- Introduction to Cybersecurity, March 2025
- CCNAv7: Switching, Routing, and Wireless Essentials, June 2024
- CCNAv7: Introduction to Networks, December 2023
- Partner: PCAP - Programming Essentials in Python, December 2023
- Partner: JavaScript Essentials 1 (JSE), November 2022

SKILLS AND KNOWLEDGE

Hard Skills

- Languages: TypeScript, JavaScript, Java, Python, HTML, CSS, PHP, Dart
- Frameworks & Libraries: React, Next.js, Node.js, Laravel, Flutter, Tailwind CSS, Bootstrap, RESTful APIs, .NET Framework, Java Swing
- Databases: MySQL, SQLite, PostgreSQL, MongoDB, Firebase, Convex
- Full-Stack: TALL Stack, MERN Stack
- Tools: Git, GitHub, Figma, Docker, Unity, Capacitor, Electron, Microsoft Office Suite

Soft Skills

- Strong written and verbal communication
- Problem-solving abilities
- Fast learner and self-motivated
- Punctual and excellent time management

RECENT PROJECTS

Farm Visit Portal [February 2026 - February 2026]

- A farm visit slip management system developed using TALL Stack for security that includes the management of users, locations, and farm visit slips. The system reduced manual processing time and improved security tracking across 5+ farm locations.

IntelliHatch [January 2026 - February 2026]

- An intelligent hatchery management system developed using TALL Stack that analyzes form submissions to identify patterns and optimize hatching processes. The system uses artificial intelligence (AI) to provide insights and recommendations for different hatchery operations, reducing the amount of time needed to manually read and analyze data by about 95%.

Digital Disinfection Slip System [December 2025 - January 2026]

- A digital disinfection slip system developed using TALL Stack for tracking truck disinfection at agricultural facilities. The system digitized 100% of disinfection tracking processes, eliminating paper waste and

improving audit compliance.

DocTask [December 2024 - November 2025]

- Built as a progressive web application for collaborative documentation and capstone project management using TypeScript, Tailwind CSS, React and Next.js, focusing on collaborative documentation and project management platform for admins, advisers, and students partaking in capstone projects. The application supported 50+ student teams with real-time collaboration, reducing project documentation time by 40%.

EXPERIENCES

Brookside Group of Companies [OJT]

Web Developer [Nov 2025 - Feb 2026]

- Developed and deployed three web applications using TALL Stack to improve workflow and security across internal processes. Built systems for farm visit management, disinfection tracking, and AI-powered hatchery analysis that digitized 100% of tracking processes and reduced manual data analysis time by 95%. Implemented frontend interfaces, server-side logic, and database-backed features supporting guards, users, and permit management across 5+ farm locations.
- **Address:** Km 102 Mc Arthur Highway, Barangay Anupul, Bamban, Tarlac

EDUCATIONAL ATTAINMENT

Tertiary Education

April 2026

- **Degree:** Bachelor of Science in Information Technology
- **School:** Dominican College of Tarlac, Inc.
- **Address:** Mc Arthur Highway, Poblacion, Capas 2315, Tarlac
- **Achievements:** Cum Laude and Programmer of the Year.
Best in Programming, Networking, Web Design and Development, and Internship.
